

**1. What do plants need to grow big and strong?**

- A) Sunlight, water, and soil
- B) Only sunlight
- C) Only water
- D) Only soil

**2. We planted two bean seeds. One seed was in a dark cupboard, and the other was on a sunny windowsill. Which plant grew taller, and why?**

- A) The plant in the cupboard, because it was dark and quiet.
- B) The plant on the windowsill, because it got sunlight.
- C) Both plants grew the same because they were both bean seeds.
- D) Neither plant grew because they didn't get enough water.

**3. Maria noticed that her sunflower turned its face to follow the sun throughout the day. What is this an example of?**

- A) Plants sleeping
- B) Plants playing games
- C) A plant's response to sunlight
- D) Plants talking to each other
