

Grade: 1

Subject: Science

Topic: Plants

1. What part of the plant helps it take in water from the soil?

- A) Roots
- B) Leaves
- C) Flower
- D) Stem

2. We planted two bean seeds. One seed was in a sunny spot, and the other was in a dark cupboard. Which seed grew taller and why?

- A) The seed in the cupboard grew taller because it was cooler.
- B) Both seeds grew the same because they are beans.
- C) The seed in the sunny spot grew taller because plants need sunlight to grow.
- D) Neither seed grew because they needed water.

3. Maria noticed that her sunflower is leaning towards the window. Why do you think this is happening?

- A) The sunflower is trying to escape the pot.
- B) The sunflower is looking for a friend.
- C) The sunflower is growing towards the sunlight.
- D) The sunflower is leaning because it is tired.
