

**Grade:** 1  
**Subject:** Science  
**Topic:** Earth Science

This worksheet contains 5 multiple-choice questions about Earth Science for Grade 1 Science students. Practice and test your understanding of key concepts. These Grade 1 Earth Science questions introduce basic concepts of Earth's land and water, the importance of environmental protection, and plant growth. Students learn to identify Earth's major components, understand the water cycle (drainage), and appreciate the need for conservation. They also practice applying knowledge of plant needs for growth.

---
